

ABSTRACT

The present invention provides industrial and commercial processes for the preparation of 2-acyl-5-benzylfuran derivatives, 1,2,4-triazole-3-carboxylic acid ester derivatives and propenone derivatives having anti-HIV activities and useful crystals thereof.

wherein R^1 , R^2 and R^4 each is independently hydrogen or the like; A is CR^6 or N; R^6 is hydrogen or the like; Q is a protecting group; and L is a leaving group.
